

Lista publikacji

- październik 2011

I. Prace oryginalne (rozdziały w książkach zbiorowych, artykuły w czasopismach):

1. Natalia Marek, Adam Krzystyniak, et al., 2011, ***Coating Human Pancreatic Islets With CD4+CD25^{high}CD127⁻ Regulatory T Cells as a Novel Approach for the Local Immunoprotection***, *Annals of Surgery* 254: 512-519.
2. Natalia Marek, Adam Krzystyniak, et al., 2011, ***The time is crucial for exvivo expansion of T regulatory cells for therapy***, *Cell Transplantation*.
3. Piotr Trzonkowski, Adam Krzystyniak, et al., 2009, ***First-in-man clinical results of the treatment of patients with graft versus host disease with human ex vivo expanded CD4+CD25+CD127⁻ T regulatory cells***, *Clinical Immunology* 133: 22-26.

II. Prace pokonferencyjne i doniesienia zjazdowe:

1. Prezentacja zagraniczna: poster, ***Microencapsulation Of The Pancreatic Islets With Biofunctional GLP-1/PEG Hydrogel***, Midwest Islet Club 4th Annual Meeting.
2. Prezentacja zagraniczna: poster, ***Optimization of the in vitro expansion of the human T regulatory cells for the purpose of the clinical co-transplant***. 18th Annual Charles B. Huggins Research Symposium.
3. ***Optimization of the in vitro expansion of the human T regulatory cells for the purpose of the clinical co-transplant***. 18th Annual Charles B. Huggins Research Symposium.
