

## **Bartłomiej Dudek**

### **Lista Publikacji**

1. Dudek, B., Gawrychowski, P., Starikovskaya, T. (2020, June). All non-trivial variants of 3-LDT are equivalent. W: *Proceedings of the 52nd Annual ACM SIGACT Symposium on Theory of Computing*, (s. 974-981).
2. Dudek, B., Gawrychowski, P. (2019, June). Computing quartet distance is equivalent to counting 4-cycles. W: *Proceedings of the 51st Annual ACM SIGACT Symposium on Theory of Computing*, (s. 733-743).
3. Dudek, B., Gawrychowski, P. (2020). *Counting 4-Patterns in Permutations Is Equivalent to Counting 4-Cycles in Graphs*. arXiv preprint arXiv:2010.00348.
4. Dudek, B., Gawrychowski, P., Starikovskaya, T. (2020). *Generalised Pattern Matching Revisited*. arXiv preprint arXiv:2001.05976.
5. Dudek, B., & Kosowski, A. (2018, June). Universal protocols for information dissemination using emergent signals. W: *Proceedings of the 50th Annual ACM SIGACT Symposium on Theory of Computing* (s. 87-99).
